# 6. Purchase Analysis

What are some actionable insights for Warby Parker?

70% of the users who took the quiz tried eyeglasses at home and out of those who tried only about 45% purchased.

50% of the users who tried 3 pairs purchased the eyeglasses

Only 33% of the users who tried 5 pairs purchased the eyeglasses.

I conclude that those users who tried 3 pairs are most likely to purchase the eyeglasses because they know what they want and they are more decided to buy eyeglasses.
